Senior Full Stack Developer

**Email:** john.doe@example.com **Phone:** +1 (555) 123-4567

Dear Hiring Manager,

I am writing to express my strong interest in the Senior Full Stack Developer position at TechCorp. With over 5 years of experience in full-stack development and a proven track record of building scalable web applications, I am confident I would be a valuable addition to your development team.

In my recent projects, I have gained extensive experience with Python, FastAPI, React, and PostgreSQL - technologies that align perfectly with your requirements. My E-commerce API project demonstrates my expertise in building RESTful APIs with FastAPI, implementing secure authentication systems, and managing complex data relationships with PostgreSQL. Additionally, my React Dashboard project showcases my frontend capabilities, featuring real-time data visualization, responsive design, and modern TypeScript implementation.

What particularly excites me about this opportunity at TechCorp is the chance to work with cross-functional teams and contribute to mentoring junior developers. I am passionate about code quality, scalable architecture, and staying current with emerging technologies. I would welcome the opportunity to discuss how my technical expertise and collaborative approach can contribute to TechCorp's continued success.

Thank you for your time and consideration.

Sincerely,

**John Doe**
